# Utah Digital Media Industry

## DIGITAL MEDIA INDUSTRY OVERVIEW

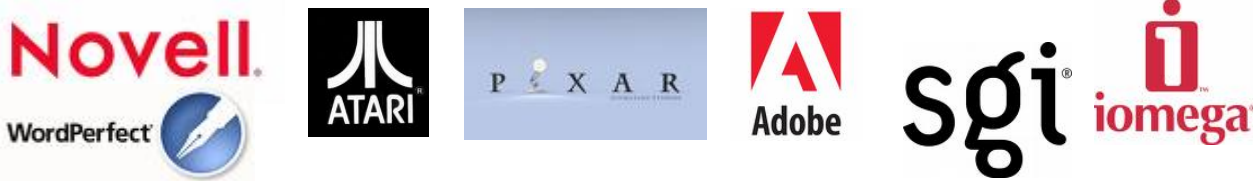

“Almost every influential person in the modern computer graphics community either passed through the University of Utah or came into contact with it in some way.”

Robert Rivlin, *The Algorithmic Image: Graphics Vision of the Computer Age*

Utah boasts a pioneering history in animation, digital media, and information technology. A few highlights include:

- The founders of **Atari**, **Adobe Systems**, **Silicon Graphics** and **Pixar** were educated at the University of Utah.
- Ivan Sutherland, the creator of computer graphics and founder of the **GUI Interface**, was a University of Utah Professor. He later co-founded **Evans & Sutherland**.
- **WordPerfect**, **Novell** and **Iomega** were all founded and headquartered in Utah.

More on Utah’s technology history is available at <http://www.siliconslopes.com/>.

There’s no question that the future for technology companies in Utah is as bright as it’s past. In fact, *Inc. Magazine* notes “Utah has become the epicenter of the ‘Inc. 500 Fastest-Growing Private Companies’ in recent years.” Utah is home to thousands of skilled graphic designers and engineers in more than 5,200 technology companies. Many of these are small, innovative companies hoping to grow into Utah’s next billion-dollar success story.

## UTAH DIGITAL MEDIA STRENGTHS

### Utah’s Video Game Industry<sup>1</sup>

- Grew by more than 32.7% from 2005-2006.
- Added \$77 million to the economy in 2006, \$58 million in 2005.
- Includes approximately 8 game developers and 2 publishers.
- Employs over 475 directly and over 1,575 Utahns indirectly.

### Utah’s Film Industry<sup>2</sup>

- Utah Film Commission reported the following 2008 numbers:
  - Movie and TV production days increased 19%.
  - Spending increased more than 30% to \$144.5 million.
  - In the past 3 years, 16 films received \$3.3 million in incentives to shoot in Utah. Those productions spent \$49.5 million.
- Utah’s film industry is ninth among all states and second only to New Mexico in the region.

## SUPPORT FOR UTAH'S DIGITAL MEDIA INDUSTRY CLUSTER

### Select Industry Cluster Work

Utah Governor Jon Huntsman, Jr., in conjunction with the Governor's Office of Economic Development, has focused his efforts on making economic development a number one priority for Utah. He has chosen to target seven specific industries, referred to as "economic clusters," where Utah has a powerful convergence of research capability and commercial technology.

Digital Media and entertainment technology is an area of strategic focus for Utah within the Information Technology cluster. Other focus areas within IT are:

- Systems management and security
- Web services and software applications
- Wireless technologies
- High-performance computing applications
- GIS mapping and imaging

### Utah Science, Technology and Research (USTAR) Initiative

Senate Bill 240, passed in March 2009, appropriates \$33 million in American Recovery and Reinvestment Act funds over a two-year period to USTAR. The majority of this funding will target new research efforts at the University of Utah and Utah State University.

USTAR is a long-term, state-funded investment to strengthen Utah's "knowledge economy." Created in March 2006, USTAR funds and supports strategic investments at the University of Utah and Utah State University to recruit world-class researchers and build state-of-the-art interdisciplinary facilities. Discoveries in the research focus areas of Biomedical Technology, Imaging Technology, Brain Medicine, Nanotechnology, Energy, and Digital Media will produce new technologies in multi-billion dollar markets. USTAR's Technology Outreach Innovation Program – led by directors based at regional outreach centers – provides a range of commercialization services for new and existing businesses. These outreach centers also support university research teams and help make connections between university and industry innovators. The centers build the state's entrepreneurial infrastructure. Whether a business is a start-up trying to reach its first \$1 million in revenue, or an established operation striving for \$1 billion, USTAR may be able to help. Visit [www.innovationutah.com](http://www.innovationutah.com) for more information.

### Utah Technology Council (UTC)

UTC works with business and government leaders to make Utah an even more vibrant, attractive, and rewarding place for technology companies to do business. UTC, a privately funded industry trade association, is the premier industry-led technology organization in Utah. UTC hosts a variety of events to share knowledge within Utah's industry including peer-to-peer forums, roundtables, golf tournaments, and an annual black tie Hall of Fame event where Utah's industry icons are honored before sell-out crowds. They also offer resources to support Utah companies seeking talent, funding, or changes in Legislative policy.

UTC is a member of the Council of Regional Information Technology Associations (CRITA), a national trade organization that represents 45 regional Technology trade organizations which in turn represent more than 15,000 technology-related companies in North America. Visit [www.utahtechcouncil.org](http://www.utahtechcouncil.org) for additional information.

### Silicon Slopes

In 2007, Omniture, a leading provider of web analytics headquartered in Utah, introduced Silicon Slopes as an online networking hub where more than 5,200 Utah-based technology companies and the people they work with can come together. Silicon Slopes continues to grow with more features, more partners, and a dedicated staff. Current features include:

- **Detailed Company Profiles:** An ever-growing database of detailed company information for more than 5,200 tech-based companies in Utah. Search based on revenues, employees, funding amounts and other data.

- **Blogspace:** A collection of blogs from others in the state with data, insights and musings on issues that affect the tech industry in Utah.
- **CEO Interviews:** Interviews with influential people who have keen insights for driving high-tech business growth in Utah.
- **Utah Job Postings:** A place where talent from all over the world will discover opportunities that allow them to return to the state and influence people new to Utah to consider building their careers here.
- **Utah Technology & Business News:** Find the latest-and-greatest industry tidbits on IPOs, mergers and acquisitions, venture funding and up-and-coming Utah companies.
- **Upcoming Events in Utah:** Stay up-to-date about events, attractions and other gatherings.

For additional information, please visit the following website: [www.siliconslopes.com](http://www.siliconslopes.com).

## EDUCATION

Utah is home to a number of colleges and universities with world class programs that support digital media companies. Utah has a total of 1,507 students enrolled in Digital Media classes and graduated a total of 94 students in programs with a digital media component. Utah schools graduate more than 800 information technology graduates every year.

### Full-Time Enrollment and IT Graduates in Utah's Colleges / Universities

Public Institution	Location	2008 Total Enrollment	2007-08 IT Graduates
Brigham Young University (private)	Provo	32,992	146
College of Eastern Utah*	Price	2,082	3
Dixie State College	St. George	6,443	21
LDS Business School (private)	Salt Lake City	1,384	4
Neumont University (private)	South Jordan	267	92
Salt Lake Community College*	Salt Lake County	29,866	59
Snow College*	Ephraim	3,798	10
Southern Utah University	Cedar City	7,516	4
University of Utah	Salt Lake City	30,228	101
Utah State University	Logan	23,925	139
Utah Valley University	Orem	26,696	130
Weber State University	Ogden	21,674	8
Westminster College (private)	Salt Lake City	2,887	120
<b>Total</b>	<b>UTAH</b>	<b>189,758</b>	<b>837</b>

\* The IT graduate figure represents Associate's degrees only.

### Brigham Young University (BYU)

Located in Provo, BYU is home to one of the most celebrated animation programs in the world. At only seven years old, the Animation Program has received national recognition and continues to win highly acclaimed awards at film festivals worldwide. BYU Animation Students have won seven "College Television Awards" commonly known as 'Student Emmys' from the Academy of Television Arts and Sciences. The students in the Animation Program have also won two "Student Academy Awards" from the Academy of Motion Picture Arts and Sciences. The animation major covers everything from traditional cell animation to 3-D animation and compositing. The program gives students broad experience in art and technology, which is applicable in a wide variety of career paths. For additional information, please visit the BYU Animation Program website at <http://animation.byu.edu>.

### **College of Eastern Utah (CEU)**

CEU, located in Price, Utah, offers many courses from its Graphic Arts Program. The program includes coursework for Basic and Intermediate Illustration, Drawing Fundamentals and 3D Modeling and Animation. For additional information about CEU, please follow the link to the website at <http://www.ceu.edu/departments/art/default.aspx>.

### **Dixie State College (DSC)**

DSC, located in St. George, offers 4-year degree program in Computer and Information Technology with an emphasis in Visual Technologies (VT). The VT emphasis is ideally for students interested in graphic arts, graphic design, desktop publishing, illustration, computer graphics, web development, multimedia development and digital video development. For additional information about DSC and its programs, please visit the DSC Visual Technologies website at <http://cit.cs.dixie.edu/vt/>.

### **Neumont University**

Neumont University began with its first freshman class in 2004. Neumont University aims to educate the most sought-after software developers in the world. This new private university offers Bachelor of Science degrees in Computer Science, Master of Science degrees in Computer Science, and MBA's in Enterprise Informatics. In partnership with IBM and Microsoft, its program places emphasis on students gaining fluency in WebSphere, .NET and Open Source development environments. The accelerated programs allow students to graduate and earn a degree in only 28 months. Neumont graduated 102 students in the spring of 2008 and has 267 students currently enrolled in its programs. For additional information about Neumont and its programs, please visit the Neumont University website at <http://neumont.edu/>.

### **Salt Lake Community College (SLCC)**

SLCC offers a Digital Media Technology (DMT) certificate to prepare students for careers in digital media. DMT provides students with advanced information technology skills in the rapidly changing fields of digital multimedia, e-commerce design, web development, technology management and routing technology. The DMT program includes cutting-edge coursework, internships and certification. Also, the SLCC Visual Art and Design Department allows students to specialize in one of six areas: animation, design, illustration, multimedia, photography and electronic publishing. In 2009, construction will begin on a new digital media training facility in South Salt Lake. For additional information, please visit <http://www.slcc.edu/visualart/index.asp>.

### **University of Utah (U of U)**

The Scientific Computing and Imaging (SCI) Institute is a permanent research institute at the U of U. The SCI Institute has established itself as an internationally recognized leader in visualization, scientific computing, and image analysis. The overarching research objective is to create new scientific computing techniques, tools, and systems that enable solutions to problems affecting various aspects of human life. The SCI Institute aims to develop innovative and robust software packages and make them broadly available to the scientific community. The Institute is also associated with several additional national research centers. For additional information about the Institute and its areas of focus, please visit the SCI website at <http://www.sci.utah.edu/about/about.html>.

### **Utah State University (USU)**

The Center for High Performance Computing (HPC) at USU enables research into activities dependent on advanced computing technologies. HPC provides large-scale visualization resources and enables education of advanced cutting edge simulation and cyber environments. For additional information, please visit the following website, <http://www.hpc.usu.edu/>.

### **Utah Valley University (UVU)**

The Digital Media program at UVU integrates conceptualizing projects through analysis, design and evaluation and developing skills of creativity and teamwork to deliver products. The program prepares students for a variety of full-time or freelance employment opportunities. UVU students in Digital Media (DGM) may earn either an AAS degree or a Bachelor's Degree. Areas of specialization include: digital imaging, digital video and audio, 2D and 3D animation,

Internet and Web-based media, CD-ROM and DVD authoring. For additional information about this program and degrees, please visit the following website, <http://www.uvsc.edu/techcom/dgm/>.

**Weber State University (WSU)**

The Design Graphics Engineering Technology program at WSU provides Bachelor’s and Associate’s degrees in Design Graphics Engineering Technology. For additional information about this program and degrees, please visit the following website, <http://weber.edu/COAST/designgraphics.html>.

**LABOR**

**Wage Data**

The Utah Department of Workforce Services provides wage data for various occupation titles in Utah. The Bureau of Labor Statistics provides wage data in the same occupation titles for the nation. The following table lists common digital media industry positions and the corresponding mean annual wage for each location listed.

Title / Position	State of Utah	National Comparison	Utah as % of National Wage
Multi-Media Artists & Animators (27-1014)	\$51,600	\$61,010	84.6%
Fine Artists, Illustrators (27-1013)	\$42,680	\$48,110	88.7%
Producers & Directors (27-2012)	\$55,320	\$77,070	71.8%
Media & Communication Workers (27-3099)	\$41,680	\$45,720	91.2%
Film & Video Editors (27-4032)	\$44,500	\$61,180	72.7%
Media & Communication Equipment Workers (27-4099)	\$51,850	\$54,090	95.9%

*Source: Utah Department of Workforce Services, Bureau of Labor Statistics (May 2007 wage estimates)*

**RECENT DIGITAL MEDIA INDUSTRY ECONOMIC ACTIVITY**

- During the 2009 Legislative sessions, state bill 14 for financial incentives for motion picture productions was passed. This bill provides tax credits dollars for motion picture productions taking place in the state of Utah. This bill, with additional discretionary funding from the Governor, will help to entice larger TV series and major film productions to the state. Additional information is provided in the following section on business incentives and business financing options.<sup>3</sup>
- At the most recent 2009 Utah Economic Summit, held in April, Dr. Ed Catmull, co-founder of Pixar Animation Studios and President of Walt Disney and Pixar Animation Studios, was the invited morning key note speaker. His comments centered on the economic opportunities presently available in the state of Utah. One of the first breakout sessions, immediately following his presentation, discussed the current Utah animation and film industry expansion with panelists from Sandman Studios, Lumenas Animation Studios, Utah Digital Alliance, Utah Valley University and Pixar.
- In February 2008, Disney Interactive Studios, the interactive entertainment affiliate of The Walt Disney Company, announced its plans to expand its focus into the video gaming industry. The Walt Disney Company acquired Avalanche Software and created Fall Line Studio, based in Salt Lake City. The company was awarded a state post-performance tax credit of \$5.25 million spread out over the next ten years. The company is projected to create 500 new jobs paying wages at 240% of the county median and generate \$15 million in new state tax revenue.<sup>4</sup>

## BUSINESS INCENTIVES / BUSINESS FINANCING

### Film Incentives

Financial Incentives for Motion Picture Productions (S.B. 14) – This bill raises the tax credit incentive to 20% of a film's total expenditure in the state and removes the \$500,000 cap that had been in place. The bill provides for motion picture incentives in the form of refundable tax credits for larger budget productions and cash rebate incentives for small budget productions. Ideally, the state wants to attract television series or large film productions. The Utah State Tax Commission may issue up to \$7,793,700 in tax credit certificates in a fiscal year and \$2,206,300 in motion picture cash rebates in a fiscal year. Governor Jon Huntsman put \$15 million of the discretionary economic federal stimulus money into the incentive fund to help recruit bigger budget TV series and films and, in turn, film studios. For additional information about the bill, please visit the Utah Legislature website at <http://www.le.state.ut.us/~2009/bills/sbillamd/SB0014.htm>.

### Additional Business Incentives

Please contact the Economic Development Corporation of Utah (EDCUtah) for business incentive and/or business financing information. (See contact information at the end of this document.)

## UTAH DIGITAL ANIMATION COMPANIES

Alpha Order	Organization	Brief Company Description
1	3DVO 380 West Ironwood Drive Salt Lake City, Utah 84115	3-D interactive imaging, photography <a href="http://www.3dvo.com/">http://www.3dvo.com/</a>
